

Dear Valued Patient,

We are writing to share some important updates regarding the care team at our Bastrop clinic to ensure your treatment continues seamlessly. Effective **Tuesday, June 9, 2026**, Dr. Ronald Parris will no longer be practicing with Pain Specialists of America. We are incredibly grateful for the dedication he has shown to our patients and wish him the absolute best in his next chapter.

We are pleased to announce that Dr. Jason (Chung-Chieh) Lo, MD is returning to our Bastrop clinic. Many of our patients may already be familiar with Dr. Lo from his previous time at this clinic. Dr. Lo is a fellowship-trained pain management physician who completed his medical school training at UTMB Galveston, his anesthesiology residency at Baylor Scott & White, and his advanced subspecialty pain fellowship at Columbia University. As an auto-pedestrian accident survivor, Dr. Lo brings a deeply personal understanding of rehabilitation and recovery to his practice. He is fully committed to providing you with the same individualized, high-quality care you expect from PSA.

Your health, comfort, and ongoing treatment plan remain our top priorities. All scheduled appointments, medication management, and therapies will continue without interruption under Dr. Lo and our Bastrop clinical team. As a patient of PSA, your medical records will remain securely on file with our practice, and you do not need to take any action to maintain your current care with Dr. Lo.

However, you retain the right to choose your physician and obtain your records. If you wish to transfer a copy of your medical records to another provider or obtain them for your own files, please contact our clinic to complete a standard medical records release form. If you have any questions about Dr. Lo's return, your upcoming appointments, or your medical records, please do not hesitate to contact our office directly. Thank you for trusting us with your care.

Sincerely,  
Dr. Pankaj Mehta  
Clinical President

A handwritten signature in blue ink, appearing to be "P. Mehta", written in a cursive style.

Pain Specialists of America is an interventional pain management group practice with top physicians in the pain management specialty. Many physician leaders have trained at the nation's most prestigious medical centers in the country, like Harvard Medical School and the Cleveland Clinic. We offer services at 13 convenient office clinics and 4 ambulatory surgery centers in Central Texas along the I35 corridor from Waco to San Antonio. Our expert physicians and their care teams develop treatment plans from a host of multidisciplinary approaches and offer the latest advanced interventional options available. Our Individualized treatment programs are designed to improve your quality of life, allowing you to return to normal daily functions as quickly as possible.
